As part of their creative commission, multidisciplinary artist Khánh Nguyên Hoàng Vũ (goes by Vũ, they/them) presented a performance and revealed their new body of work – 50 unique, handmade, ceramic gourds – to our creative community on Saturday, April 30, 2022 at the historic Stone House at the Deering Estate. Both the performance and artifact served as a vessel to bring together artists, collaborators and audiences.

This commission was made possible by New World School of the Arts and Maven Leadership Collective.
